Safety Data Sheet This Safety Data Sheet is valid for all concentrations of potassium hydroxide solution *without* DMSO.

Section 1. Identification		
Product Identification and Item Numbers:	Potassium Hydroxide, 10% solution (KOH/10/1, KOH/10/2)	
	Potassium Hydroxide, 20% solution (KOH/20/1, KOH/20/2)	
Product Description:	Potassium Hydroxide, 10% solution, in Purified Water	
	Potassium Hydroxide, 20% solution, in Purified Water	
Recommended use and restrictions on use:	N/A	
Supplier:	Delasco	
	4001 E Plano Pkwy, Ste 100	
	Plano, TX 75074	
	1-712-323-3269	
	www.delasco.com	
	<u>questions@delasco.com</u>	
In Case of Emergency, Contact:	Chemtrec (24 hour) 1-800-424-9300	

Section 2. Hazard(s) Identification
Classification:	
Acute toxicity, Oral	(Category 4)
Eye irritation (Categ	Jory 2)
Metal corrosion (Ca	ategory 1)
Skin corrosion (Cate	egory 1A)
Skin irritation (Cate	gory 2)
Labeling:	
Hazard symbol(s):	GHS05: corrosion
Signal word:	Danger!
Hazard statements	
H290: May be corro	sive to metals.
H302: Harmful if sw	rallowed.
H314: Causes seve	re skin burns and eye damage.
Precautionary stat	ements:
P260: Do not breath	ne dust/ fume/ gas/ mist/ vapours/ spray.
P305 + P351 + P33	8: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if
present and ea	asy to do. Continue rinsing. Seek medical attention.
P303 + P361 + P35	3: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water.
	call a POISON CENTER or doctor/ physician.
	ive gloves and eye and face protection.
•	

Section 3. Composition/Information on Ingredients		
Chemical Name and Concentration:	Potassium Hydroxide Water	Concentration: 8% - 20% Concentration: 80% - 92%
Other Names, Common Names, Synonyms:	Caustic potash - liquid or	r solutions; Potassium hydrate
CAS Number, other unique identifiers:	Mixture: Potassium Hyd Water	roxide CAS# 1310-58-3 CAS# 7732-18-5
Other classified impurities or stabilizers:	N/A	
Other ingredients posing health hazards:	N/A	
Concentration of other hazardous ingredients:	N/A	

Section 4. First-aid Measures	
Inhalation exposure:	Remove person to fresh air. Seek medical attention. Give oxygen or artificial respiration as needed.
Skin exposure:	Get medical aid. Wash off with soap and plenty of water immediately while removing contaminated clothing/shoes.
Eye contact:	Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid immediately. Continue rinsing eyes during transport to hospital.
Ingestion:	NEVER give anything by mouth to an unconscious person. If vomiting does occur, have victim lean forward to prevent aspiration. Rinse mouth with water. Immediately have victim drink several glasses of water to dilute. Seek medical attention.

Section 5. Fire Fighting Measures		
Suitable / unsuitable extinguishing media:	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.	
Specific hazards / combustion products:	Under fire conditions, potassium oxides may be produced.	
Special protective equipment and precautions for fire- fighters:	Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes. Keep unopened containers cool by spraying with water.	
NFPA Hazard Classification	Health – 3 Flammability – 0 Instability – 0	0-Minimal 1-Slight 2-Moderate 3-Serious 4-Severe

Section 6. Accidental	Section 6. Accidental Release Measures	
Personal precautions and protective equipment:	Use personal protective equipment. Avoid the inhalation of vapors, mist, dust, or gas. Confirm adequate ventilation prior to use of product. Remove personnel from the area. Do not touch damaged containers or spilled material unless wearing chemical protective clothing. Stop leak if you can do it without risk.	
Environmental Precautions:	Prevent entry into drains, waterways, and sewers.	
Containment / clean up methods:	Absorb with an inert dry material and place in an appropriate waste disposal container. Keep disposal containers closed when finished. Dispose as hazardous waste.	

Section 7. Handling and Storage	
Precautions for safe handling:	Do not get on skin or in eyes. Do not inhale vapor or mist. Take normal fire prevention measures. Provide sufficient air exchange and/or exhaust in work rooms. Handle and open container with care.
Conditions for safe storage:	Take normal fire prevention measures. Keep containers tightly closed in a dry, cool and well-ventilated place.
Incompatibilities to avoid:	Take normal fire prevention measures.

Section 8. Exposure	Section 8. Exposure Controls and Personal Protection	
OSHA Permissible Exposure Limit (PEL):	Not available	
Threshold Limit Value (TLV):	Not available	
Other exposure limits:	(NIOSH) Ceiling: 2 mg/m3 (NIOSH Recommended Exposure Limit) (ACGIH) Ceiling 2 mg/m3 (ACGIH Threshold Limit Value)	
Engineering controls:	Use fume hood or other means of adequate ventilation. Electrical equipment should be grounded and conform to applicable electrical code.	
Personal protective equipment:	Respiratory Protection Use adequate ventilation, such as a fume hood. Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Eye Protection Use chemical safety goggles and/or a full face shield where splashing is possible. Use equipment approved by appropriate government standards, such as NIOSH (US) or EN166 (EU). Maintain eye wash fountain and quick-drench facilities in work area. Skin Protection Wear impervious protective clothing, including footwear, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact. Inspect gloves prior to use. Avoid skin contact when removing gloves. Wash and dry hands.	
Other personal protection measures:	Provide nearby eyewash station and safety shower.	

Section 9. Physical and Chemical Properties		
Appearance (physical state, color, etc.):	Clear, colorless solution with characteristic odor.	
Odor:	Characteristic odor	
Odor threshold:	Data not available	
pH:	Alkaline	
Melting point / freezing point:	Data not available for solutions of potassium hydroxide.	
Initial boiling point and boiling range:	Data not available for solutions of potassium hydroxide.	
Flash point:	Data not available for solutions of potassium hydroxide.	
Evaporation rate:	Data not available for solutions of potassium hydroxide.	
Flammability	Not flammable or combustible.	
Upper / lower flammability or explosive limits:	Data not available for solutions of potassium hydroxide.	
Vapor Pressure:	Data not available for solutions of potassium hydroxide.	
Vapor density:	Data not available for solutions of potassium hydroxide.	
Relative density:	Data not available for solutions of potassium hydroxide.	
Solubility:	Soluble in water.	
Partition coefficient: n-octanol/water:	Data not available for solutions of potassium hydroxide.	
Auto-ignition temperature:	Data not available for solutions of potassium hydroxide.	
Decomposition temperature:	Data not available for solutions of potassium hydroxide.	
Viscosity:	Data not available for solutions of potassium hydroxide.	

Local & International: 1-712-323-3269 24-Hour Fax: 1-712-323-1156 Website: <u>www.delasco.com</u> Email: <u>questions@delasco.com</u>

Section 10. Stability	Section 10. Stability and Reactivity	
Chemical stability:	The product is stable under normal storage conditions.	
Possibility of hazardous reactions:	Data not available for solutions of potassium hydroxide.	
Conditions to avoid (static, shock, vibration)	Data not available for solutions of potassium hydroxide.	
Incompatible materials:	Strong oxidizing agents.	
Hazardous decomposition products:	Under fire conditions, potassium oxides may be produced.	

Section 11. Toxicological Information		
Routes of exposure:	Skin, eyes, inhalation, Ingestion	
Acute Symptoms (acute):	 Inhalation: Respiratory tract irritant. Can cause serious burns on acute contact. Severe injury is usually avoided by the self-limiting coughing and sneezing symptoms. Eye Contact: Irritant, possibly corrosive to eye tissues. Can cause severe eye damage. Skin Contact: Can cause rapid corrosion of skin and severe skin burns. Ingestion: Toxic! Corrosive to mucous membranes and may cause perforation of the esophagus and stomach. Abdominal pain, nausea, vomiting, and overall gastrointestinal upset can be expected. 	
Symptoms (chronic): Chronic effects from short and long term exposure:	 Skin: Development of a defatting dermatitis on prolonged contact with potassium hydroxide has been reported. Inhalation: Continued irritation may lead to increased susceptibility to respiratory illness. Ingestion: Data not available 	
Numerical measures of toxicity (e.g., acute	LC50: Data not available LD50: Data not available	
toxicity estimates):		
NTP carcinogen:	Not identified	
EPA carcinogen:	Not available	
ACGIH carcinogen:	Not identified	
IARC potential	Not identified	
carcinogen:		
OSHA carcinogen:	Not identified	

Section 12. Ecological Information (Non-mandatory)	
Ecotoxicity (aquatic and terrestrial, where available):	Toxicity to fish LC50 / 96 hours Mosquito Fish - 80 mg/L
Persistence and degradability:	Not available
Bioaccumulative potential:	Not available
Mobility in soil:	Not available
Other adverse effects:	Not available

Section 13. Disposal Considerations (Non-mandatory)		
Safe methods of disposal:	Contact a licensed professional waste disposal service. Observe all federal, state, and local	
	environmental regulations.	

Section 14. Transport Information (Non-mandatory) US DOT UN number: UN1814 Class: 8 Packing Group: II UN proper shipping name: Potassium Hydroxide, Solution Packing group, if applicable: PG: II Environmental hazards (marine pollutant, etc...) N/A N/A Special transport precautions: N/A

Section 15. Regulatory Information (Non-mandatory)		
Specific safety, health, and environmental regulations:	N/A	

Section 16. Other information		
Date of preparation or last revision:	11/13/2024
