Safety Data Sheet

Section 1. Identification	
Product Identification and Item Numbers:	Trichloroacetic Acid Solution, 50% w/v (TCA/50/1, TCA/50/2, TCA/50/PT)
Product Description:	Trichloroacetic Acid Solution, 50% w/v in Purified Water
Recommended use and restrictions on use:	N/A
Supplier:	Delasco 4001 E Plano Pkwy, Ste 100 Plano, TX 75074 1-712-323-3269 <u>www.delasco.com</u> <u>questions@delasco.com</u>
In Case of Emergency, Contact:	Chemtrec (24 hour) 1-800-424-9300

Section 2. Hazard	s) Identification	
Classification:		
Skin corrosion / irri Aquatic Acute (Cat Aquatic Chronic (C		
Labeling:		
Hazard symbol(s)	*	
	GHS09: environment	GHS05: corrosion
Signal word:	Danger!	
Hazard statement	S:	
	ere skin burns and eye da	
	aquatic life with long lasti	ing effects.
Precautionary sta	tements:	
P260: Do not breat P264: Wash skin th	he dust or mist. horoughly after handling.	
		hing/eye protection/face protection. mouth. Do NOT induce vomiting.
	IF ON SKIN (or hair): Re	move/Take off immediately all contaminated clothing. Rinse skin with
P304+P340: IF INI	ALED: remove victim to f	fresh air and keep at rest in a position comfortable for breathing.
		ously with water for several minutes. Remove contact lenses, if present
	o. Continue rinsing.	
	call a POISON CENTER	or doctor/physician.
P273: Avoid releas	e to the environment.	

Section 3. Composition/Information on Ingredients		
Chemical Name and Concentration:	Trichloroacetic Acid, 50% w/v Water, 50% w/v	
Other Names, Common Names, Synonyms:	TCA, Trichloroethanoic acid	
CAS Number, other unique identifiers:	Mixture: Trichloroacetic Acid Water	CAS# 76-03-9 CAS# 7732-18-5
Other classified impurities or stabilizers:	N/A	
Other ingredients posing health hazards:	N/A	
Concentration of other hazardous ingredients:	N/A	

Section 4. First-aid	Section 4. First-aid Measures		
Inhalation exposure:	If a person breathes large amounts of this chemical, move the exposed person to fresh air at once. If breathing has stopped, perform artificial respiration. Keep the affected person warm and at rest. Get medical attention as soon as possible.		
Skin exposure:	Immediately flush the contaminated skin with water. If this chemical penetrates the clothing, immediately remove the clothing and flush the skin with water. Get medical attention promptly.		
Eye contact:	Immediately wash (irrigate) the eyes with large amounts of water, occasionally lifting the lower and upper lids. Get medical attention immediately.		
Ingestion:	Get medical attention immediately.		

Section 5. Fire Fighti	ng Measures		
Suitable / unsuitable extinguishing media:	SMALL FIRE: Drychemical, CO2, or water spray. LARGE FIRE: Dry chemical, CO2, alcohol-resistant foam or water spray.		
extinguishing media.	Move containers	from fire area if you can do it without risk. vater for later disposal; do not scatter the material.	
Specific hazards /	Combustible material: may burn		
combustion products:	When heated, vapors may form explosive mixtures with air: indoors, outdoors and sewers explosion hazards.		
	Contact with metals may evolve	flammable hydrogen gas.	
	Containers may explode when h		
Special protective	Wear positive pressure self-contained breathing apparatus (SCBA).		
equipment and precautions for fire-	Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.		
fighters:	Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.		
NFPA Hazard	Health – 3	0-Minimal	
Classification	Flammability – 1	1-Slight	
	Instability – 0	2-Moderate	
		3-Serious	
		4-Severe	

Section 6. Accidental Release Measures		
Personal precautions and protective equipment:	 ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Evacuate and ventilate the area. Do not touch damaged containers or spilled material unless wearing chemical protective clothing. Stop leak if you can do it without risk. Prevent entry into basements or confined areas. Wear chemical protective clothing. 	
Environmental Precautions:	Prevent entry into waterways and sewers.	
Containment / clean up methods:	Dilute with water and mop up, or absorb with dry earth, sand or other non-combustible material and transfer to containers. If necessary, neutralize residue with a dilute solution of sodium carbonate.	

Local & International: 1-712-323-3269 24-Hour Fax: 1-712-323-1156

Section 7. Handling and Storage	
Precautions for safe	Provide sufficient air exchange and/or exhaust in work rooms.
handling:	Handle and open container with care.
_	Keep containers tightly closed in a dry, cool and well-ventilated place.
Conditions for safe	Keep containers tightly closed in a dry, cool and well-ventilated place. Separate from food
storage:	and feedstuffs.
Incompatibilities to avoid:	Incompatible with bases. Avoid metals.

Section 8. Exposure Controls and Personal Protection		
OSHA Permissible	None	
Exposure Limit (PEL):		
Threshold Limit Value	TWA 1 ppm	
(TLV):		
Other exposure limits:	NIOSH REL: TWA 1 ppm (7 mg/m3)	
Engineering controls:	Use fume hood or other means of adequate ventilation.	
Personal protective	Respiratory Protection	
equipment:	Vapor respirator recommended.	
	Eye Protection	
	Wear appropriate eye protection to prevent eye contact (face shield recommended).	
	Skin Protection	
	Wear appropriate personal protective clothing to prevent skin contact (gloves	
	recommended).	
Other personal protection	Provide nearby eyewash station and safety shower.	
measures:		

Section 9. Physical and Chemical Properties		
Appearance (physical state, color, etc.):	Clear, colorless liquid, although some yellowish brown coloration is common in higher concentrated solutions.	
Odor:	Odor is somewhat pungent and/or sweet, with slight chlorine odor.	
Odor threshold:	Data not available	
pH:	Acidic	
Melting point / freezing point:	Data not available for solutions of trichloroacetic acid.	
Initial boiling point and boiling range:	Data not available for solutions of trichloroacetic acid.	
Flash point:	Data not available for solutions of trichloroacetic acid.	
Evaporation rate:	Data not available for solutions of trichloroacetic acid.	
Flammability	Data not available for solutions of trichloroacetic acid.	
Upper / lower flammability or explosive limits:	Data not available for solutions of trichloroacetic acid.	
Vapor Pressure:	Data not available for solutions of trichloroacetic acid.	
Vapor density:	Data not available for solutions of trichloroacetic acid.	
Relative density:	Data not available for solutions of trichloroacetic acid.	
Solubility:	Data not available for solutions of trichloroacetic acid.	
Partition coefficient: n-octanol/water:	Data not available for solutions of trichloroacetic acid.	
Auto-ignition temperature:	Data not available for solutions of trichloroacetic acid.	
Decomposition temperature:	Data not available for solutions of trichloroacetic acid.	
Viscosity:	Data not available for solutions of trichloroacetic acid.	

Section 10. Stability and Reactivity	
Chemical stability:	The product is stable.
Possibility of hazardous reactions:	Keep away from incompatibles such as oxidizing agents, and metals.
Conditions to avoid (static, shock, vibration)	Keep away from incompatibles such as oxidizing agents, and metals.
Incompatible materials:	Reactive with oxidizing agents, metals. Extremely corrosive in presence of aluminum, of zinc, of copper, of stainless steel (304). Highly corrosive in presence of stainless steel (316).
Hazardous decomposition products:	When heated to decomposition it emits toxic fumes of /hydrogen chloride and sodium oxide.

Section 11. Toxicolog	gical Information
Routes of exposure:	Skin, eyes, inhalation, Ingestion
Acute Symptoms (acute):	 Inhalation: Extremely hazardous in case of inhalation (lung corrosive). Extremely irritating to the upper respiratory tract (nose, throat). Effects of acute inhalation include coughing, choking, dizziness, weakness, followed by air hunger, swellwing of the throat, pulmonary edema, frothy sputum, dyspnea, cyanosis, tachycardia, and an increase in red blood cell count and hematocrit. Eye Contact: Hazardous in case of eye contact (corrosive). Causes severe irritation, and burns of the eyes. It causes mild to moderate burns of the eyes. Skin Contact: Very hazardous in case of skin contact (irritant). Causes severe skin irritation, thickening of the skin, blisters, and burns. It causes mild to moderate burns of the skin. It is not readily absorbed through intact skin. Ingestion: Very hazardous in case of skin contact of ingestion. Causes digestive tract irritation, and burns. Systemic effects following ingestion are secondary to gastrointestinal tract damage and acidosis. Ingestion causes drooling, stridor, severe burning pain in the mouth, throat, esophagus, abdomen (stomach), followed by bloody vomiting and diarrhea.
Symptoms (chronic):	 Skin: Prolonged or repeated skin contact may cause skin irritation and dermatitis.
Chronic effects from short and long term	 Inhalation: Chronic inhalation may cause erosion of the tooth enamel, jaw necrosis, bronchial irritation, chronic cough, frequent attacks of pneumonia, and
exposure:	gastrointestinal tract disturbances.
	 Ingestion: Chronic ingestion may affect the liver, and metabolism (weight loss), and urinary system
Numerical measures of	Acute Toxicity to Animals:
toxicity (e.g., acute	LD50: Not available.
toxicity estimates): NTP carcinogen:	LC50: Not available Not available
EPA carcinogen:	Not available
ACGIH carcinogen:	Classified A3 (Proven for animal)
IARC potential	Group 2B (possibly carcinogenic to humans).
carcinogen:	
OSHA carcinogen:	Not available

Section 12. Ecological Information (Non-mandatory)		
Ecotoxicity (aquatic and terrestrial, where available):	 Toxicity to fish LC50 - Pimephales promelas (fathead minnow) - 2.000 mg/l - 96.0 h Toxicity to daphnia and other aquatic invertebrates EC50 - Daphnia magna (Water flea) - 1,460 - 2,000 mg/l - 48 h 	
Persistence and degradability:	Biodegradability Zahn-Wellens Test - Exposure time 27 d	
Bioaccumulative potential:	Not available.	
Mobility in soil:	Not available.	

Local & International: 1-712-323-3269 24-Hour Fax: 1-712-323-1156 Website: <u>www.delasco.com</u> Email: <u>questions@delasco.com</u>

Other adverse effects:	Not available

Section 13. Disposal Considerations (Non-mandatory)

Safe methods of disposal: Dispose of in accordance with federal, state and local environmental control regulations.

Section 14. Transport Information (Non-mandatory)						
US DOT	UN number:	UN 2564	Class:	-	Packing Group: II	
UN proper shipping name:		Trichloroacetic Acid, Solution				
Packing group, if applicable:		PG: II				
Environmental hazards (marine pollutant,		N/A				
etc)						
Special transport precautions:		N/A				

Section 15. Regulatory Information (Non-mandatory)			
Specific safety, health, and environmental	N/A		
regulations:			

Section 16. Other information		
Date of preparation or last revision:	11/14/2024
